## 分級醫療核心理念

一般症狀先找附近熟悉病史的  
基層院所醫師看診

↓  
經由醫師專業評估有轉診需求

↓  
醫師協助確認轉診，對症就醫

### 為什麼看醫生要「分級醫療」？

健保醫療資源有限，為讓醫學中心及區域醫院回歸急重症  
醫療照護及新醫療技術研究，提高醫療服務效率與品質

# Local doctors look after your health

## Core principle of prioritized medical treatment

In most cases individuals should go to a local hospital and get a diagnosis from a doctor familiar with their medical history

The doctor conducts a professional assessment and makes a referral

The doctor confirms the referral and treatment is administered based on presenting symptoms

Why does seeing a doctor involve **prioritized medical treatment?**

Health insurance medical treatment resources are finite. Medical centers and regional hospitals are encouraged to focus on emergency medical care and new medical technology research to enhance the efficacy and quality of treatment

# Bác sĩ hàng xóm tốt bụng bảo vệ sức khỏe của bạn

**Khái niệm cốt lõi của việc phân cấp chăm sóc y tế**

Nếu bạn có triệu chứng bình thường, trước tiên vui lòng tham khảo ý kiến của bác sĩ từ cơ sở y tế gần nhà, người quen thuộc với bệnh sử của bạn.

Có nhu cầu chuyển tuyến sau khi được sự đánh giá chuyên môn của bác sĩ.

Bác sĩ hỗ trợ xác nhận giấy chuyển tuyến để được điều trị y tế thích hợp.

**Tại sao cần phải “phân cấp chăm sóc y tế” khi đi khám bệnh?**

Nguồn lực điều trị theo chế độ bảo hiểm y tế còn hạn chế. Để cho các trung tâm y tế và bệnh viện khu vực có thể tập trung chăm sóc y tế cấp tính và chứng bệnh nặng, cũng như nghiên cứu công nghệ y tế mới, nâng cao hiệu quả và chất lượng dịch vụ y tế.
